PRESENTER: **Elfried Koots** is Managing Director of Power Management & Control Systems N.V. which specializes in the marketing and sales of woodward products (including governors) in the Caribbean and Central America. He has no less than 10 years experience in providing customized solutions for the customer as well as undertaking systems engineering assignments. He has been an instructor on Woodward controls theory and operations for the past 7 years. He has a wide knowledge of troubleshooting woodward systems and special instrumentation tools which he has combined with a good working knowledge of telcommunication equipment and computers. He conducted several courses on Woodward Governors for CARILEC in the early nineties.
