2021 CARILEC Engineering & Procurement Conference
July 26th – 28th 2021

Exhibition Guidelines
Dear Exhibitor,

The Caribbean Electric Utility Services Corporation (CARILEC) is an association of electric energy solution providers and other stakeholders operating in the energy industry in the Caribbean. The Association is made up of thirty-three (33) electric utilities from Bermuda in the north to Suriname in the south, and over one hundred (100) Associate, Independent Power Producers & Affiliate member companies involved in some aspect of servicing the electric utility business.

The Engineering and Procurement Conference is mainly attended by engineering professionals from the Regional Utilities, North America, and Europe. It also attracts interest from manufacturers, suppliers of equipment and materials and other industry service providers. It is a forum which facilitates networking, the exchange of ideas and the exposure to new developments, technologies, and products both through presentations and a trade show which is a growing segment of the conference.

The 2021 CARILEC Engineering and Procurement Conference to date is CARILEC’S largest event. The three-day virtual event features a trade show, technical presentations, classroom-type sessions, and the highly valued speed-networking sessions.

The greatest benefit of this event is that the supplier has a ready audience of not just the Utility Engineers, to whom they could propose their technical solutions to, but also other vendors with whom they can forge synergetic partnerships.

This year’s event will be held virtually from July 26th – 28th 2021.

Please feel free to contact us for any further information at events@carilec.org

Happy Networking!
